By John Breeds

## SOME MISCELLANEOUS COMMENTS

I know I've said it a few times in different threads already, but I'll say it again, "If you don't have this book, you are missing out"!!!! That's it really, nothing more to say. I've got it, I'm reading it over and over again, and my magic show is getting better because of that. My phone skills are improving, my understanding of the BIGGER picture of entertaining kids is greatly improving.

I got the book a week ago. 100 percent agree it is great and a must have. I've been doing games as an add on for years.

The illustrations are fun, the production strong, and the content relevant, useful, creative, and well presented. Thanks John.

I am devouring this GREAT book now. It's nothing short of brilliant. My question, if you're still here John, is will this be available in hard back anytime soon, as I know I'm going to wear this paperback version out.

**Mike King. Missouri**

Mr. Breeds, I took a peek at your book and was very impressed. The illustrations are great and descriptions very clear. Well done!

I managed to get my hands on a copy of "How To Create Kids Magic and Triple Your Income" and all I can say is WOW!

**Rodney Smythe. Canada**

Terry Herbert and Silly Billy have both raved about it and, from what I've read, you can add my name to the list of fans. It's one of the few magic books written for children's entertainers with professionals in mind. As well as being full of great routines it's also got several chapters on marketing and business that are practical and designed for the real world.

John was the inventor of the *Visible Painting Effect*, (black and white picture becomes instantly coloured when removed from an envelope) which would have to make him one of the most ripped off magician ever!

**Nicholas Johnson. Australia**

I've known of John Breeds for some time. I use his original 'Visible Magic Painting' in most shows. It's such a shame that a guy with such a great brain and excellent ideas hasn't received widespread recognition for inventing this trick.

**Mark Andrews. England**

John Breeds' new book, 'How To Create Kids Magic and Triple Your Income' is the one to get!

John is an expert on marketing and I could certainly use some advice in that area! I've been waiting for the release of this book for some time.

access to this fantastic book. Many top professional entertainers are praising it and highly recommend it. This is a must buy item for anyone serious about performing for a living and worth every penny of the small price to buy.

**Razamatazz Magic. England**

If you're ramping up to be a part of the kids' entertainment business, you'll find that Breeds' book can give you a running start. And experienced performers may learn a thing or two as well.

**Wayne Kawamoto, USA**

No self-respecting children's entertainer should be without this book.

**Ted Lumby,**

John Breeds is up there at the top when it comes to kids stuff. His book is full of great tips and ideas.

I have known of him for many years but having spent a couple of hours with him at Blackpool over a cup of tea, I found myself in the company of a person who knows a great deal about all types of entertainment. I showed him my 2 new tricks I will be putting out this year and within seconds he was coming up with great ideas for them.

**Jimmy Carlo (Jimbo). England**

This is real world information from a very successful performer who has decades of experience backing him up and I recommend it to anyone, regardless of experience, who does or wants to do kids show magic and make money.

**Magic Santa. Northern Nevada, USA**

John's book arrived today, co-incidently while I was talking to John, and Wow am I impressed.

In the past when I've read a magic book I've skipped the intro stuff and gone straight to the tricks. I've never read a magic book from cover to cover. Not this time.

I took the book into my private reading room, and read the first chapter on selling yourself, I thought I had a pretty good sales pitch, but John's book has taught me it's good, but not great, and with John's help it will get better.

John you are a genius, I love the layout of the book, it makes it so easy to read and digest, and the graphics and lists etc are terrific. Well Done mate.

**Emazdad. England**

Your book is great! I want to tell you how much value this book is for any magician doing shows for children of any age.

The book contains virtually everything you need to know to accomplish excellent performances, as well as how to sell your show. Your illustrated ideas are fantastic. Yes, the whole book is brilliant.

**Conny Ray. Sweden**

A brilliant tome. Well worth getting and using!
